"You are so special. You have so much goodness inside you to give to others."

Using the author's qualified knowledge in art and colour psychology...

Suzanne is a qualified Aura-Soma Colour Consultant so the session includes a unique and fun approach to enhancing kid's self-esteem through the use of personal colour selections to gain insight into their inner strengths and positive qualities they can share with others. Suzanne is also a qualified art therapist. She uses art and craft activities to help children capture and remember the "take home messages" in a simple and fun way.
